ROBATTI MULTI-DRILL

Revolutionary Double-Headed Drill

The Robatti Multi-Drill is a revolutionary rechargeable double-headed drill developed in Denmark and brought to the US exclusively by Innovation Village.

For the first time, switching between a drill bit and a screwdriver bit requires just the touch of 1 button.

**Dual Function
Heads**

**RECHARGEABLE
18v NiCAD BATTERY**

LX202118

**20"L x 18"W x 7 1/2"D
13.75 lbs.**

Safety

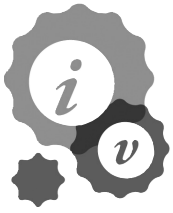

Concentration and balance are no longer compromised in precarious situations – on ladders, on roofs, in volatile environments or limited spaces.

Simplicity

The touch of 1 button allows a seamless transition between drill and screwdriver bits – no more continual replacing of bits throughout the job.

Efficiency

Job times can be cut in half with the double-head technology and the long life 18V NiCad rechargeable battery lasts for up to 60 minutes at full power.
